**Clínica Romero CEO Carlos Vaquerano Stands with Attorney General Rob Bonta
Regarding Women's Right to Birth Control**

For 39 Years Clínica Romero has Supported Women and Their Right to Reproductive Choices

(Los Angeles, CA) "Today's statement from Attorney General Rob Bonta serves as a reminder that women in California are free to determine what are the best reproductive choices for them. I am proud to say that Clínica Romero has supported women for 39 years and their right to determine their own future.

Women are the backbone and strength of our community. We honor and respect them and their choices.

We offer all gynecological services and family planning, which includes counselors and doctors listening to women and their needs and offering the best course for them and their families. Contraception is available at a low cost or free depending on the person's financial circumstances. All women, regardless of their immigration status, can avail themselves of our services. We will not turn any woman away who is seeking our services. We are here to serve them.

At Clínica Romero we believe that health care is a human right for all. We provide quality, affordable healthcare services to Latina women and underserved communities. We continue to provide quality care by demonstrating compassion and defending the most vulnerable of our community every day."

For a list of our services please go to www.clinicaromero.com
